

PROTECT

## Travabon<sup>®</sup> Classic

Specialist Skin Defense Cream

### PRODUCT DESCRIPTION

Specialist pre-work cream to protect against heavy oil-based substances and workplace dirt. Makes it easier to clean the skin after contact with heavy-duty contamination.

### WHERE TO USE

Work places where the skin on hands and arms is in contact with oily, water-insoluble substances and water immiscible metal-working oils (such as oil, paint, lacquer, graphite, metallic and other dusts) when gloves are not worn.

### HOW TO USE

- Apply to clean and dry skin before starting work, after washing hands and after lengthy breaks.
- Rub small amount of product on areas of skin at risk, including between the fingers and on the fingernails.
- After work: Dirt should first of all be loosened using a little bit of water prior to actual cleaning, then be thoroughly rinsed under running water.

NB: Using skin care products does not release you from your duty to take the prescribed protective measures.

FORMAT: CREAM

### FEATURES

### BENEFITS

Unique dual action formulation

- Protects the skin from heavy contamination while facilitating skin cleansing

Unique formulation based on combination of natural hydrocolloid and a special soil-suspending emulsifier

- Very good protection against a wide range of substances
- Helps to stop stubborn types of dirt from clinging to the skin
- Skin can be cleansed quickly and easily
- Reduces the amount of skin cleansing required and allows for a milder cleansing process

CARTRIDGE: AQUA (WATER), TALC, GLYCERIN, SODIUM COCOYL ISETHIONATE, STEARIC ACID, LAURETH-10, DISTARCH PHOSPHATE, POLYGLYCERYL-2 DIPOLYHYDROXYSTEARATE, BENTONITE, ALGIN, XANTHAN GUM, POTASSIUM SORBATE, LACTIC ACID, SODIUM PHOSPHATE, PARFUM (FRAGRANCE), SODIUM ISETHIONATE, DIETHYLHEXYL SODIUM SULFOSUCCINATE, SILVER CHLORIDE, PROPYLENE GLYCOL, TITANIUM DIOXIDE

STATUTORY REGULATIONS

This product is manufactured and labeled in compliance with the Federal, Drug, and Cosmetic Act issued by the Food and Drug Administration (FDA). Deb products are produced and tested to ensure they meet the quality requirements for registration and/or approval by the FDA.

SAFETY DATA SHEETS

For Safety, Environmental, Handling, First Aid and Disposal information, please refer to the Safety Data Sheet which can be downloaded from [www.debgroup.com/us/msds](http://www.debgroup.com/us/msds).

SHELF LIFE

This product has a shelf life of at least 30 months from the date of manufacture when stored unopened at room temperature.

PACK SIZES

| Stock Code | Size              | Case Quantity |
|------------|-------------------|---------------|
| TVC30ML    | 30ml tube         | 100           |
| TVC100ML   | 100ml tube        | 12            |
| TVC1L      | 1 liter cartridge | 6             |

QUALITY ASSURANCE

Deb products are manufactured in facilities which follow Current Good Manufacturing Practice (cGMP) and/or Cosmetic GMP requirements.

All raw material used for production undergo a thorough quality control process before being used for manufacturing in Deb’s high quality products.

All finished products are subject to intensive quality testing before being shipped out to our customers.

COMPATIBILITY ASSURANCE

Skin Compatibility Test: The skin compatibility test of Travabon® Classic was tested using state of the art dermatological tests using voluntary test panels. In these tests, as well as in practical use, Travabon® Classic has proven to have good skin compatibility.

### EFFICACY TESTS

In a test model developed by W. Gehring (Dermatological Clinic, Karlsruhe), it was demonstrated that a product of the type of Travabon® Classic has an effect of supporting the skin's natural function against the solvent toluene, the standard irritant used.

The greater ease of skin cleansing has been demonstrated in practical application tests specifically designed for this purpose (Research & Development, Deb-Stoko Europe, Krefeld) and in field studies as well.

**FIGURE 1**

Cross sections of the skin after being exposed to toluene for 90 minutes: large blisters appear below the epidermis of the unprotected skin and result in the epidermis and dermis becoming detached.

**FIGURE 2**

No skin damage can be seen to the skin protected by Travabon® Classic; the condition of the skin is normal.
