Probiotic interior cleaner for daily use, with a beneficial effect on the environment

- Lightly foaming interior cleaner
- For cleaning water-resistant surfaces (furniture, doors, windows etc.)
- Cleans surfaces
- Can be used undiluted as a preventative drain cleaner
- Leaves behind a long-lasting enjoyable scent
- Fresh fragrance

Hygiene and infection control are hugely important for many institutions. There are currently still too many products being used that contain chemicals that are harmful to people and the environment. Greenspeed offers a solution for this: probiotic cleaning agents. These ecological products allow the good bacteria to battle organic dirt and odours. This creates a healthy stable microbial environment. Not harmful to people or animals. The big advantage of the probiotic products is that they go far beyond basic environmental-friendliness. The micro-organisms are 100% natural. Once these products have been used, they re-enter the environment where they actively contribute to water purification and maintain a natural microbial balance. The probiotics also remove grime and organic dirt, even deep down in the surface. This ensures a lifelong clean result. The probiotics also hereby neutralise foul odours. Compared to many chemical cleaning products, the probiotic products are very safe to use. It is the first probiotic range that has been given the EU Ecolabel certificate. The bacteria used in the Greenspeed products are registered on the QPS list of EFSA (European Food Safety Authority).

pH 7
Cleaning Power Powerful

Suited for

Thermoplastic flooring in PVC or vinyl - Linoleum - Flooring covered with a polymer protective film - Rubber flooring - Natural stone, acid sensitive (limestone) - Natural stone, non acid sensitive - Ceramic tiles - Flooring in concrete, poly-concrete, unglazed tiles and cement based composite floors - Screeds, epoxy flooring, PU flooring and resin based composite floors

USAGE

Shake before use. Add 0.5% Probio Multi to a bucket of water - 25 ml per 5 l or 40 ml in an 8 l bucket. Clean the surface with a sponge or cloth. No rinsing required. For heavy soiling, the dose can be increased to 1%. Also suitable for spray cleaning.

Store the product between 10 ° C and 40 ° C, protected from direct sunlight.

Only use this product for its specified purposes. If in doubt, first test the product in an inconspicuous area. BOMA is not responsible for any damages if the product is used incorrectly. Consult the Safety Data Sheet (SDS) for additional information.
