GENERAL

Material Health Go

Probiotic sanitary cleaner for daily use with environmental benefits.

- Slightly foaming sanitary cleaner
- For cleaning the entire washroom and toilet
- Cleans joints and prevents limescale
- Leaves behind a long-lasting enjoyable scent
- Fresh perfume

Hygiene and infection control are hugely important for many institutions. There are currently still too many products being used that contain chemicals that are harmful to people and the environment. Greenspeed offers a solution for this: probiotic cleaning agents. These ecological products allow the good bacteria to battle organic dirt and odours. This creates a healthy stable microbial environment. Not harmful to people or animals. The big advantage of the probiotic products is that they go far beyond basic environmental-friendliness. The micro-organisms are 100% natural. Once these products have been used, they re-enter the environment where they actively contribute to water purification and maintain a natural microbial balance. The probiotics also remove grime and organic dirt, even deep down in the surface. This ensures a lifelong clean result. The probiotics also hereby neutralise foul odours. Compared to many chemical cleaning products, the probiotic products are very safe to use. It is the first probiotic range that has been given the EU Ecolabel certificate. The bacteria used in the Greenspeed products are registered on the QPS list of EFSA (European Food Safety Authority).

pH 5

USAGE

Shake before use. Dosage (0.2%): 10 ml in a 5 l bucket of water (= 1x dosage via DosyGrip). Clean the surface with a sponge or cloth. Rinsing is not necessary. In case of heavy soiling, the dosage may be increased to 0.4% (= 2x dosage via DosyGrip).

Store the product between 10°C and 40°C, protected from direct sunlight.

Only use this product for its specified purposes. If in doubt, first test the product in an inconspicuous area. BOMA is not responsible for any damages if the product is used incorrectly. Consult the Safety Data Sheet (SDS) for additional information.

5L AQUA + 10ML

Greenspeed Probio San - 1 l - new packaging and perfume

TECHNICAL SPECIFICATIONS

Dimensions product (HxØ) 24 x 9 cm

Shape: Liquid

Color: Red

Odor: Fresh

Solubility in water: Completely

pH value: 5

Relative density: 1.010 Kg/L

Flash Point: > 100°C

Packaging: 25% recycled plastic + 75% plantastic, 100% recyclable
