Speed, precision
& design

Meet the **i-mop XXL**®

Sometimes bigger can be better. The i-team proudly presents the new i-mop XXL: a re-engineered powerhouse that literally runs circles around the competition. With a larger scrub deck & new power management system, large obstructed areas become possibilities. This innovation allows the user to clean up to 2300 m² in just an hour, flipping the script on how a larger auto scrubber should look, feel & handle. Start saving tremendous time when operating the machine, and cut down time on logistics on your larger workspaces. You can approximately save 20% of your time compared to a conventional walk-behind auto scrubber with a size of 50 to 75cm. Empower yourself with the i-mop XXL, where powerful innovation meets flexible design.

Full size scrubber dryer with the flexibility of a flat mop

scrub & dry

- 62 cm cleaning path
- 2 powerful brush motors
- Nylon protective bumper
- Cleans right up to the edge

extreme mobility

- Low profile deck to clean underneath objects
- 360° of flexibility

click on / click off

- Easy to fill, clean & empty above a sink
- Use different tanks for different chemicals
- Reduce unproductive refill waiting time by prepping in advance according to HACCP standards

battery charge

- Quick exchange
- 2 sets = 24/7 power
- Runs on i-power 14 batteries

easy transport

- Transport wheels
- Fits in the trunk of a car
- Easy to store & carry upstairs
- 100% mobility

Low profile deck

Think outside the box

24/7 energy

Friendly user-experience

With the i-mop XXL, users operate a machine that not only looks & feels right, but also twists and turns like no other scrubber dryer on the market. It's friendly exterior & usability makes it the perfect addition to your workforce.

New power management

We have redesigned the power management system and packed in as much power as physically possible into our new grey i-power 14 batteries.

They are the exact same shape & size as our i-mop XL batteries. You can use them across all of our products, simply plug and play.

Re-engineered for width

In order to achieve the balance between challenging larger areas with the same flexibility and speed as the i-mop XL. We have enlarged the scrub-deck to give the machine a cleaning path of 62 cm and added more water capacity.

Lightweight & storage

The i-mop XXL has been designed in such a way that it takes up very little floor space when it's not being used. Store it in a closet within reach. Take it with you up and down steps and stairs. Pop off the batteries and lift the water tank from the machine to load it into the trunk of a car. In short, a fully mobile machine.

Total cost of ownership

No new training needed. The i-mop XXL combines all of the elements of the previous build, and upgrades you to work in bigger unobstructed areas. By expanding the range of your machines, the way you operate is in your own hands, without the unnecessary extra overhead.

Technical specifications

Application	Indoor, hard surfaces only
Theoretical performance	Up to 2300 m ² per hour
Practical performance	1200 - 1800 m ² per hour
Brush speed	350 RPM
Brush pressure	32 kg
Operation width	62 cm
Size machine (l x w x h)	43 x 69 x 124 cm
Weight without batteries & water	21 kg
Clean water tank	5 L
Recovery clean tank	5 L (max 8 L)
Material	PP, Aluminum alloy
Power source	2 i-power 14 batteries*
Battery spec	25.2 V, 14 Ah
Run time	60 minutes
Charger type	Off-board
Charger	110-240V, 50/60Hz

i-land[®]

Our goal is to simplify the entire cleaning process and increase your level of joy while you clean. So for long days, huge buildings and on-site projects, you are going to need a work station that holds all of your equipment. That's why we created the i-land. An all-in-one solution, which makes sure you have everything you need in one accessible and convenient supporter. No more unproductive traveling time!

Power up

Space is in short supply these days. We should not waste a single inch when it comes to the limited storage space we can even get.

That's why we thought: why not use the vertical option towards the ceiling for charging your batteries? You only need one power socket for multiple chargers. Now you can easily attach, hook-up, and power your batteries without losing precious space!

Storage for all your i-team needs

Not enough room for your equipment?
We've got you covered. Store your i-range,
i-mop and all of your accessories inside this
handy cabinet. With room for wallchargers,
pads, brushes, your i-mop and more,
the i-store is the perfect utility closet
in your storage facility.

K.1.S.107.0004.0

Steel cabinet

Steel storage closet. Easily built & set up. Different levels for brushes, pads and chargers. Has a built-in spot for a power outlet.

K.1.S.107.0001.0

INOX cabinet

INOX storage closet. Same levels and space as the steel storage closet, but with a more robust character for a longer lifespan. Perfect for the food industry.

Cleaners on the go

Need to travel with your cleaning equipment, and don't want any unnecessary harm done during transport? Protect your i-mop inside of an aluminum hardware case on the go, whether it is transported by air, boat, car or even from building to building. Bring your batteries, brushes and different tanks with you in our i-bag. Carry with a shoulder strap or integrated backpack structure. It reduces the carry weight of your i-mop XXL to 17 kg!

Our bright future **together**

663,000,000 people don't have access to clean drinking water. Together with Made Blue we wanted to do something about this.

Let's jump into some details!

Saving water all over the world.

By operating i-mops, your partners, clients and users lower the water footprint whilst contributing positively to the availability of water in the world.

Clean water & charity projects

Made Blue measures the total water used or saved by products or services and ensures that same amount to be made available elsewhere. Water projects are implemented by international charity organisations such as Red Cross and Amref Flying Doctors.

Join the i-team

Innovation & caring about the environment should go hand in hand. Join us in making the world a better place, for now and the future. For more information, visit: i-teamglobal.com

Water conservation

The i-mop was designed to change the process of cleaning, and has done so in two ways: creating a revolutionary device that increases cleanliness, and also saving water usage for the user, the company, and the planet.

Donate

By now Made Blue has realized over 1.5 billion litres of clean water in developing countries, enough to serve over one hundred thousand people every year.

Made Blue family

Being a part of the i-team, means being a part of the Made Blue family. We encourage all of our employees to tell the story, and inform everyone about Made Blue.

The i-team story

Inquire

Creating better solutions starts with listening. Our insights come from collaborating with our customers in order to understand their needs.

Innovate

We try to rethink - from the ground up - how things should be done. While we harness our experience, we are not constrained by conventional solutions. That's how we - our team of designers, engineers, manufacturing staff, the way we collaborate with customers and partners - have fundamentally reinvented the process of cleaning.

Inspire

The spirit of our enterprise is animated by a commitment to the success of our customers, our business partners, and our community. This teamwork is only made possible through transparency, accountability and mutual respect.
